## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-13 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of preparing a combination of a transparent substrate and color conversion filter layers, forming an overcoat layer with a pillar mold formed by a stripping layer and a temporary substrate, attaching the overcoat layer with the pillar formed in pillar mold to the combination the transparent substrate and the color conversion filter layer while curing the overcoat layer with the pillar at a predetermined temperature.

Regarding claims 2-7 and 12, claims 2-7 and 12 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 8, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 8, and specifically comprising the limitation of attaching the overcoat layer with the pillar formed in the pillar mold to the combination of the transparent substrate and the color conversion filter layer while curing the overcoat layer with the pillar at a predetermined temperature, and removing the stripping layer to detach the temporary substrate from the overcoat layer with the pillar.

Regarding claims 9-11 and 13, claims 9-11 and 13 are allowable for the reasons given in claim 8 because of their dependency status from claim 8.
